Objective

Detail-oriented QA Manual Tester with over 3 years of experience in manual, API, and basic automation testing across the Travel (Bus Ticket Booking) and Hospitality domains. Skilled in analyzing business requirements, preparing test plans, designing and executing test cases, identifying bugs, and collaborating with developers and stakeholders to ensure quality software delivery.

Hands-on experience testing payment gateways, booking flows, order processing, user account management, cross-browser/device compatibility, and backend validation using SQL. Adept at working in Agile environments, using tools like , Git, Postman, and REST Assured.

Core Competencies

- Manual Testing: Functional, Integration, Regression, System, Exploratory Testing,PaymentGatewayTesting,Database Testing,BackendValidation Testing,Smoke Testing
- API Testing: Postman, REST Assured
- Automation (Basic): Selenium WebDriver, TestNG, Cucumber,
- Database: SQL Queries (DDL, TCL) for data verification
- Bug Tracking & Collaboration: JIRA, Git
- Test Documentation: Test Cases, Traceability Matrix, Defect Reports
- Agile/Scrum Practices
- Cross-Browser & Cross-Device Testing

Professional Experience

Associate Software Tester

Ezeeinfo Cloud Solutions Pvt Ltd, Chennai | May 2024 – Present

Domain: Travel (Bus Ticket Booking Application)

- Analyzed user stories and requirements to create detailed test plans and test cases covering end-to-end ticket booking workflows.
- Executed manual testing for core modules: search, seat selection, booking, passenger details, cancellation, refunds, and ticket transfers.
- Performed API testing using Postman and REST Assured to validate booking, payment, and refund APIs.
- Validated payment gateway integrations (credit/debit card, UPI, wallets) ensuring secure and successful transactions.
- Conducted regression testing before every release to ensure system stability after changes.
- Carried out cross-browser and cross-device testing to confirm consistent functionality across Chrome, Firefox, Edge, and mobile browsers.
- Logged and tracked defects using JIRA, collaborated with developers to ensure timely resolution.
- Maintained test documentation (test cases, execution reports, and bug reports) for project audits and knowledge sharing.
- Participated in daily stand-ups and sprint planning meetings to provide QA updates and raise testing

risks.

Junior Software Tester

Winsar Infosoft Pvt Ltd, Chennai | Sep 2021 – Nov 2023

Domain: Hospitality (Hotel & Restaurant Applications)

- Assisted in creating test plans and designed test cases from requirements and user stories.
- Performed functional testing on hotel booking workflows including room reservations, tariff plans, billing, and guest check-in/check-out.
- Tested the Point of Sale (POS) system for restaurant billing and transaction workflows.
- Conducted integration and exploratory testing to uncover hidden issues in real-time scenarios.
- Reported and tracked defects in JIRA, ensuring resolution within release deadlines.
- Collaborated with developers and business analysts to reproduce, analyze, and fix critical issues.
- Improved testing efficiency by identifying gaps in test coverage and enhancing regression test suites.
- Documented test execution results, defect logs, and test case repositories for future reference.

Projects Handled

- BITS – Bus Inventory Transport Services (Travel Domain)

Tested search, seat booking, cancellation, refunds, and payment gateway integrations.
Validated multi-step booking flows, ensuring seamless passenger experience.

- WINHMS – Hospitality Management System

Verified hotel reservation, billing, tariff, and package features.
Conducted POS testing for accurate restaurant billing and financial transactions.

- CARGO – Logistics Application

Tested booking, scheduling, and tracking of cargo services.
Verified route optimization and secure payment processing.

Education

M.Sc. in Computer Science – Arcot Sri Mahalakshmi Women's College, Thiruvalluvar University (2018)

Technical Highlights

- Tools: JIRA, Git, Postman, REST Assured.
- Automation: Selenium WebDriver, TestNG, Cucumber.
- Databases: SQL (DDL, TCL)
- OS/Browsers: Windows, Chrome, Firefox, Edge.
